🔗 My Port-Folio

🪪 Profile

A motivated and passionate Master's student in Information Technology Management with a solid foundation in Software development. Seeking to leverage my skills and knowledge in a challenging development role to create innovative, user-friendly web applications.

💼 Professional Experience

Impact Software Solution   12/2020 - 09/2021

Student Job Frontend Development

- Designed and developed user interfaces for web applications using React.
- Worked closely with backend developers to integrate frontend components with Node.js APIs.
- Implemented responsive designs and optimized frontend performance.

📁 Projects

IPhone ⧉   08/2024

React.js,GSAP,Tailwind CSS,Three.js,3D

Developed a visually immersive and interactive website using React.js, GSAP, and Three.js, complemented by Tailwind CSS for responsive design. The project showcases advanced 3D effects and animations, creating a dynamic user experience that highlights the iPhone's features and design in a captivating manner.

Virtual and Dynamic Landing Page ⧉

It's fully dynamic site useing tailwind CSS and React.js which i build for my personel practice

E-Commerce website

This websilte in which I'm using simple HTML,CSS, and Javascipt.In ⧉ This project how to use the basic logic if you stuck in project how to use internet to get help.

EV-WEBSITE ⧉

React js, Javascript

In this I have use background video using React js and and styling I use Tailwindcss
